MERN Stack	● ● ● ● ●	Spring-Boot	● ● ● ● ●
Next.js	● ● ● ● ●	Java	● ● ● ● ●
GraphQL	● ● ● ● ●	SQL	● ● ● ● ●

## Projects

### Resume Analyzer [🔗](#)

*Spring-Boot, React and nlp microservice.*

- A full-stack AI-powered web app that **analyzes uploaded resumes** and **extracts** key insights such as **skills**, **experience**, and **strengths** using NLP. Built with **React** (TypeScript), **Spring Boot**, and **FastAPI** (Python).

### GramBazaar [🔗](#)

*E-commerce Platform with Stripe Payments & Admin Dashboard*

- Developed a **Next.js e-commerce platform** for browsing and booking rural products. Integrated **Stripe Sandbox payments** and implemented **secure JWT-based authentication**.
- Built a **feature-rich Admin Dashboard** to manage products, users, and bookings.

### Personal Finance Visualizer [🔗](#)

*Full-Stack App – Next.js & MongoDB*

- Developed a responsive **finance tracking app** with **budgeting**, **category-wise analytics**, and **CRUD** functionality.
- Used **Next.js**, **Recharts**, and **MongoDB** to visualize monthly expenses effectively.

### Tripbnb [🔗](#)

*Airbnb-style booking platform with MERN Stack*

- featuring **user authentication**, **listing creation** with **image uploads** via **Cloudinary**, and **interactive maps**.
- Deployed on **Vercel** and **Render**(backend).it offers a seamless experience for **booking and managing stays**.

## Experience

01/2025 – 04/2025  
Ahmedabad

**MERN Stack Developer intern**  
*at Brainy Beam Infotech Pvt. Ltd.*

- Worked on full-stack web development using MongoDB, Express.js, React.js, and Node.js.
- Contributed to building reusable components and integrating RESTful APIs.
